Ishtar Antares was born in 1971 in Ljubljana, Slovenia. Since childhood he had many spontaneous kundalini experiences that brought to him clear uninterrupted memory of his past incarnations and his existence before he came to this planet in Atlantis. He began conscious channeling in 1993. The power of his message soon reached many people and he was invited by many radio and TV stations in Slovenia, Croatia and Italy to give interviews, almost one million people watching and listening to his transformative message. He wrote dozens of articles for several different local and international magazines. His book »Aurora 2012«, originally published in Slovenia, is now available in English and will soon be available in Spanish also. He gives workshops on Ascension process, Abundance and Light body activation worldwide.
